

Do you have or plan to have... MICROWAVE?

Maintaining microwave equipment at peak efficiency requires men with FCC licenses. If you have microwave now, or plan to have it in the next few years, you'll be ahead if you start men in training now for their FCC licenses. Time is important because it takes as much as a year to give men the basic electronic training they need for microwave and other electronic equipment. Cleveland Institute Home Study Programs can provide this training efficiently, economically. For complete information . . . write:

K. L. Ede, Vice President

Cleveland Institute of Electronics

1776 E. 17th Street, Cleveland 14, Ohio

Accredited member National Home Study Council
