

● *Conrail.*—Ordered an additional 26 SERVOSAFE Hot Box Detective Systems from Servo. During 1976, 27 similar systems were placed in service by Conrail. When the new order is completed, Conrail will have a total of 265 SERVOSAFE installations representing a capital investment of \$10 million since 1958. Each of the new installations will include Servo's rail-mounted Model 8808 scanners, plus trackside hot box visual display boards and associated solid state electronic data processing equipment.
