

WABCO's Radio shop.

Upgrade your communications system with WABCO components.

When specifying radio systems or components, think WABCO. We supply all the gear necessary for the upgrading of your communications system. Everything from Series 4R railroad radios to coaxial cable accessories.

The core of the WABCO communications network—the 4R radio—is a versatile, 12 channel, solid state VHF-FM communications unit. It features reliable performance, ease of modular servicing and operational flexibility.

The 4R is used in locomotives, cabooses, transit cars, local and remote base stations as well as automotive systems.

WABCO also supplies a complete line of control units, handsets, microphones, speakers, antennas... accessories to upgrade your present system and equipment to build a new one. For radio components, think WABCO.

Transportation from the word go.
